# Paediatric Cardiology Update

On Sunday the 16<sup>th</sup> of October 2016  
at Ramada Resorts, Kochi.

Dear Colleague,

Greetings from Lakeshore Heart Centre.

From a modest department in 2004 the Lakeshore Heart Centre has become a centre of excellence. Cardiology has evolved rapidly and today every facet is being handled separately by cardiologist with niche expertise. Lakeshore Heart Centre added Electrophysiology to it is fold in 2011 & now we are adding yet another subspecialty- Paediatric Cardiology.

Revisiting & updating is a routine here at Lakeshore and with this addition, we thought it was befitting to have an update on it. This meet will be for Paediatricians & Obstetricians. Most of the talks will be delivered by Paediatric Cardiologists (inhouse & external) and a few by Interventional Cardiologists & an Electrophysiologist. We are glad to have **Dr Saurabh**, Paediatric Cardiologist from AIIMS as the external expertise.

We welcome you all for the meeting and look forward to your participation.

**Dr. Anand Kumar V**  
Consultant Interventional  
Cardiologist

**Dr. Cibi Issac**  
Consultant Interventional  
Cardiologist

**Dr. P R Bhima Shankar**  
Consultant Cardiologist &  
Electrophysiologist

**Dr Venkateshwaran**  
Consultant Paediatric  
Cardiologist.
